-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 26 January 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

Double Patenting

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 26-40 and 43-55 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-51 of Nichols et al (U.S. Patent No. 6,367,481) in view of Adams et al (US. Pat. No. 4,784,164).

Nichols et al claims all that is recited in the instant claims, except it may not state that the thermally opened perforations are blocked with occlusions which comprise combustible filling material. However, Adams et al discloses that it is known to partially or fully block perforations by a coating of heat-removable composition (corresponding to the claimed "combustible filling material") (see col. 1, lines 46-52). Therefore, it would have been obvious to one having ordinary skill in the art at the time of the invention to utilize the composition disclosed as being known in Adams et al to fill the perforations of the wrapper claimed in Nichols et al in order to allow the perforations to be opened by

Art Unit: 1731

the approach of the burning tip so as to reduce porosity of the wrapper during smoking – as is well-known in the art.

Allowable Subject Matter

3. Upon the filing of a proper Terminal Disclaimer, pursuant to the above “Double Patenting” Rejection, the claims of record will be in condition for allowance. The following is a statement of reasons for the indication of allowable subject matter: The Examiner is convinced by Applicant’s arguments, presented in the response filed on January 26, 2004, which emphasizes the point that while Bale suggests that the wrapping material, of its cigarette wrapper, may be provided with ventilation holes, Bale does not teach or reasonably suggest providing thermally opened holes/perforations being blocked by occlusions which comprise combustible filling material in a second layer of said wrapping material (wherein there is a first and second layer of combustible material which comprises said wrapping material).

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
